

Energy Performance Certificate

6, Commercial Terrace
PADSTOW
PL28 8BX

Dwelling type: Mid-terrace house
Date of assessment: 16 September 2009
Date of certificate: 16 September 2009
Reference number: 8909-1466-0720-9196-1113
Total floor area: 106 m²

This home's performance is rated in terms of energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO₂) emissions.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential
Energy use	336 kWh/m ² per year	262 kWh/m ² per year
Carbon dioxide emissions	6.0 tonnes per year	4.7 tonnes per year
Lighting	£68 per year	£48 per year
Heating	£723 per year	£587 per year
Hot water	£114 per year	£88 per year

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This certificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

Certification mark

This EPC and recommendations report may be given to the Energy Saving Trust to provide you with information on improving your dwelling's energy performance.
